ABOUT MAEVE

More than a podcast. A community.

Maeve Security gives women in cybersecurity and technology a platform to tell their stories in their own words and share hard-won insights with a growing community. Through a podcast, interviews, original writing and events, everything is built around the people doing the work, not around any single company's message. Maeve means “she who rules,” and that's the whole idea behind it.

OPEN TO EVERYONE

Storytelling is where it starts. Community is where it grows.

We're not a membership-based organization. Maeve is a place to connect, learn and find support, with no barrier to entry and open to anyone who wants to belong.

OUR MISSION

To make the women shaping cybersecurity and technology visible, and to pass on their hard-won lessons so the next generation can learn and grow.

COMMUNITY

Who's in our community

01 Security, IT and GRC practitioners

02 Engineers, developers and data specialists

03 Product, design and technical leaders

04 Women entering or growing in tech

05 Hiring managers and talent teams

OUR AUDIENCE

Why this audience matters

The people you want to reach are already here. Women building careers in cybersecurity and technology come to Maeve to learn from peers they trust, alongside the leaders and allies who champion them. Sponsoring Maeve shows them, in a space they value, that you're invested in their success in this field.

Your brand shows up inside the conversations that shape their careers: the stories they listen to, the lessons they share and the community they return to. That kind of presence builds lasting goodwill, not just visibility.

We're in our first season, which means early access, a direct relationship with the host, and today's rates before they rise as we grow.

WHY MAEVE

Five reasons to partner with Maeve.

01	You show up where it matters.	Your brand appears alongside real stories and conversations the community trusts, not between ads they skip.
02	You reach the right people.	Women across cybersecurity and technology, plus the allies who champion them, all in one community.
03	Your support is visible.	Backing representation in this field shows the community, publicly, that your company is invested in their success.
04	You get in early.	Early partners lock in today's rates, which may increase as Maeve grows.
05	You help shape it.	Early partners get real input into the content and events roadmap, a seat at the table while Maeve is being built.

OUR COMMITMENTS

Clear terms, honest content.

Editorial independence. Sponsors don't choose guests, approve questions or review edits. That independence is what makes the stories worth hearing. The exception is Maeve Live, where you pick the topic and participants.

Clearly labelled. Sponsored placements are always marked "Presented by," "Powered by" or "Sponsored by."

No pitches in interviews. Your message lives in its sponsor slot, never inside the conversation. Maeve Live is the one place built for showcasing your work.

Every sponsor is recognized. Depending on the sponsorship, you are listed on our sponsor page or thanked publicly on LinkedIn and our other socials.

Simple written agreement. What you get, when, and what it costs, signed before anything runs.
